

Invasive species:

The Lionfish

Land Rover BAR and their exclusive sustainability partner 11th Hour Racing are raising awareness on the global issue of this invasive species. Cut out your own lionfish and use it to spread the word about the dangers of invasive species and the effect they have.

Can you think of a solution?

1. Cut out the shape along the solid lines.

Remember to cut around the antennae above eyes and on 'chin'. Also the slot in the top.

4. Fold at dotted line. Glue the halves together. Wedge into slot on top of box

2. After cutting out the shape, fold along all dotted lines and form a box shape.

3. Apply glue to all tabs and squeeze to the inside of the box shape until set.
